

THE ADAM'S APPLE

WINTER 1984

VOL. 1 NO. 2

EDITOR'S NOTE

Dear Member:

In this issue we have much information for you. You will be pleased with it. First, we have a catalog made up of Hardware and Software for the ADAM. We also have a information on a booklet featuring the Sprites and sound chip of the ADAM. You can order the booklet and receive a couple programs with it. We are waiting for some additions to our newsletter such as articles, programs, and letters to the Editors section.

Sincerely,
Charles Kolin, Ed.

REVIEW ON ADAM'S MODEM

GENERAL INFORMATION:

Package Contains:

Adamlink Modem Card

Telecommunication Software (available on disk or dpack)

Instruction booklet

Miscellaneous componets (including telephone cable, phone plug, and other connectors)

Free demo with Compuserve and free phone time with them with a subscription.

The ADAM'S APPLE Has just purchased a modem and will soon be getting the disk drive. We are just starting to work on our data base so we hope you will soon be purchasing a modem.

Content of Owners Manual:

The manual gives basically everything you need to know to you work the modem, including a glossary of commands and instalation. Be sure to read the booklet titled read me first. It will show you how to put the sleeves over connecting wires. If you don't put them on the modem may not work well because of electric waves. The instruction booklet does not mention this.

Instalation:

The instalation was easy except for a few minor details, like the cables blocking the path for the modem card. But all they need is a little bending which won't harm them.

Software:

The program contains many good points like the human featureson it. We hope you decide to buy one.

RECENT CHANGES ON THE ADAM

Lately its been called to our attention that Coleco has been making many changes to the hardware and to its service. The printer is now quiter, the warranty is extened to 6 months, and a \$500 scholarship and \$100 worth of software are included with a purchase of an ADAM before 1985. A new version of ADAM may be out in June.

BASIC QUIZ

This month's quiz is a word find. Answers are spelled backwards, forwards, diagonally, horizontally, and vertically. The answers will be printed in the next issue.

- | | |
|-----------------------------|--------------------|
| M B C A D F E G N P W R F Z | 1) BASIC |

| E O A V P R I N T E R V J L | 14) RUN |
| W I S A D A M L E R O M Z K | 15) ADAM |

The answers to last issue's Basic Quiz are the following:

- 1) An Array Dim
- 2) Another way to type "print" ?
- 3) Opposite of output input
- 4) Length statement Len
- 5) Opposite of GR or HGR mode text
- 6) Opposite of Poke Peek

Do you have a product or program you want advertised ? Well you can advertise your product here in our classifieds section. For only \$1.00 per word. Minimum 10 words. Bold faced printing \$3.00 extra. Please print or type.

ATTENTION ADAM PROGRAMERS

A software company called IMAGE has been selling software for such popular machines as TI. The company is now seeking original programs for the ADAM. The way it works is you send your program in and they'll review it. If they like it they'll send you a contract. Send a sase to the ADAM'S APPLE for the address and other info.

BOOKLET ON ADAM

Recently we have received information on Adam in booklet form, which was very accurate and very helpful and we are pleased with it. It describes the ADAM'S sprite, sound chip and much more. When you order the booklet if you include a data tape he will save disassembler and other programs on it all for an inexpensive price. Peter Hinkle designed the booklet.

You can write to Mr. Hinkle for for more information:

PETER HINKLE

ITHACA, NY 14850

LETTERS

I'm writing a program that requires the use of sequential text files. Every time I use the manual's example, the computer locks up.

John Smith
Buffalo, N. Y.

The book is missing "HTAB1" before the "CLOSE" statement. Here is an example:

```
100 D$=CHR$(4):B$="HELLO":A$="GOODBYE"  
110 ?D$; "OPEN TEST":?D$; "WRITE TEST":?B$; ?A$  
120 HTAB1:?D$; "CLOSE TEST"
```

If you need more information, Coleco Industries has a packet of sequential file programs available by calling 1-800-842-1225.
