SIGNS!, Volume 1&2, are used with the software program SignSHOP from Strategic Software. On each volume, each sold seperately, there are many, many different signs, letterheads, banners, logos, notices, pictures, and greeting cards. These you can change to meet your needs or just use them as is. You'll have fun and they all come in handy. It also is great to use when just learning how to use SignSHOP. More volumes on the way. Write for info.

LOTS! & LOTS!

of pictures, paintings, games, and more. Do you have PaintMASTER from Strategic Software and don't know how to draw? Well here is relief. With either Volume 1 or 2 or 3 you can learn how to draw and use you PaintMASTER program to the fullest. On each, each sold seperately, you get tons of great games that you play while learning how to draw in the PaintMASTER program. It also comes with paintings that will amaze even the skilled artist. If you thought that Comodore was a good color computer, just wait, you'll leave'em in the dust! You thought 16 colors is not enough, we'll prove you wrong. 16 colors is all you'll need to make great paintings, drawings, and with the PicturePRINT program that you have you can make posters!!!! GREAT!!!!

Examples: Space Shuttle, Mazes. Modern Art, Album Covers, and MORE!!!
