

davasan software

s. 1829 glenrose rd. spokane, wa. 99203

Dear ADAM* owner,

Thank you for your interest in our fine line of software tapes designed exclusively for the COLECO ADAM* computer. We think you'll be excited to be able to create an entire library of quality programs for your new computer at such a minimal investment.

First, a word of apology. I know you requested more information quite a while ago, and I wish we could have been more prompt in our response. When we introduced our tape libraries, we were expecting orders, but we were not prepared for the flood of orders that poured in! Since our ad was published, we have been devoting all of our resources to the timely shipment of orders. We have now reduced our backlog so that we can catch up on our correspondence. I want to thank you for your patience, and you can now expect to receive your order within 4 to 6 weeks after your payment clears.

As a fellow owner of an ADAM* computer, I was excited by the potential of such a useful tool, at such an excellent value. It was fun to quickly take care of my correspondence chores, and play the game cartridges we bought, but I wished there were more programs available that would let me take advantage of the ADAM's* full potential and perform some useful functions.

I decided to create a collection of programs which could be the starting base of my own personal software library. I have made these programs available to my fellow ADAM* owners in the form of five different library tapes. Each program in the libraries is designed to work on the ADAM* computer. Each is written in BASIC and includes source code listings and instructions for use of the program.

Once you own our library of programs, I think you will be as proud as I am to show off your 'SMART' ADAM* to friends. Your wise investment in ADAM* looks even wiser when you shift it into high gear with DAVASAN's software libraries.

Once again, thank you for your interest in our products.

Sincerely,

David Jacob

President
DAVASAN SOFTWARE

P.S.

*For each library tape
you order thru October
we will send you one
LORANGER blank digital data
pack FREE! (A \$7.95 value)*
